27 JULY 2021 - EDITION 99

With your support, the Shire of Harvey is looking to deliver future community precincts in Australind and Harvey. The precincts will deliver a range of benefits, including the development of new facilities and services for all ages.

The local community will be involved at every stage, creating an open conversation to ensure all ideas, thoughts and opinions are heard.

For future development to continue, the Shire is seeking community feedback on the future community precincts in Australind and Harvey.

Harvey Community Precinct

The Harvey Community Precinct draft master plan is a visual representation of what could be achieved. It is a dynamic long term planning document that considers the connection between buildings, social settings and the surrounding environment and coordinates future investment.

Detailed design will assess all community feedback to ensure the precinct is designed to cater for the Shire's current and future needs, for our children and grandchildren to use.

75% of the proposed facilities are community facilites, with provision for a library, RSL, play group, community resource centre, community radio, arts, youth and indigenous yarning included.

An events room, accessible to the public for bookings, will be used as a Council Chamber when required.

The sports ground parking will be increased to include parking for both the sporting facilities and the community and Shire parking needs. There is provision for accessible parking.

The development of the community precincts will be staged. Design and documentation will commence by the end of this year. Construction of the first phase, which includes the new library, is planned to start in late 2022.
