## Community Priorities | Scorecard Feedback

Two community priorities emerged from the MARKYT Community scorecard for the Coastal areas. These priorities, with a general summary of concerns outlined in Scorecard feedback, are:

### Paths, trails, cycleways

- Improved coastal walking trails and cycleways
- Improved footpaths in Binningup and Myalup

### Safety and crime prevention

- Greater police and ranger presence needed in coastal towns
- Concern over use of unlicensed vehicles, speeding and hooning

## Community Priorities | Workshop Feedback

A FUTYR Workshop was held in Binningup on May 28 2025. A total of 18 people from Myalup and Binningup attended the workshop. The FUTYR workshops helped us to understand and support the priorities emerging from the scorecard. Over the course of the workshops, we received many written suggestions and comments.

Workshop participants also reviewed approximately 154 actions proposed for inclusion in the Council Plan. These were grouped under the banner of nine themes and 23 objectives, as shown on the next page.

The 148 actions were developed from a variety of sources, including MARKYT Scorecard feedback and actions carried over from existing plans and strategies.

The workshops gave participants an opportunity to provide feedback on topics across the whole Shire. They also allowed us to understand what was important to each community. The pages below provide a general overview of the responses and priorities that emerged at the Coastal workshop.

**Page 2** shows the average ratings given for the 23 objectives by Coastal workshop attendees.

**Page 3** shows the Coastal area's Community Scorecard results charts. This also includes examples of how the workshops rated some specific actions related to the priorities identified in the scorecard.
