Community Priorities | Scorecard Feedback

Three community priorities emerged from the MARKYT Community scorecard for the Rural North area. These priorities, with a general summary of concerns outlined in Scorecard feedback, are:

Local Roads

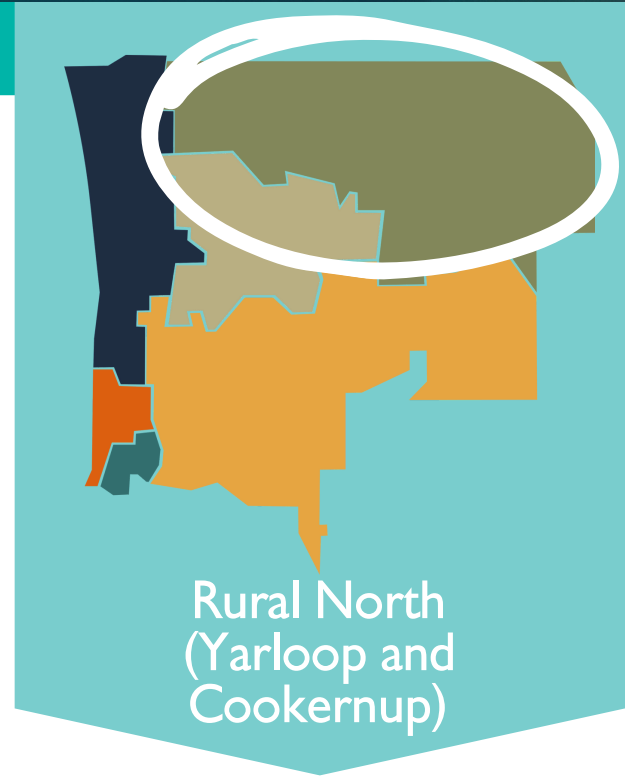

- Increase grading and sealing of gravel roads, especially where they are high use or tourism routes
- Fix potholes and unsafe kerbs

Economic Development

- Encourage business development within the Shire to promote job growth in local areas
- Encourage development and growth of tourism businesses

Pest Management

- Management of noxious weeds such as Cotton Bush and Bridal Creeper
- Management of pests on road and rail reserves, and shire-owned property

Community Priorities | Workshop Feedback

A FUTYR Workshop was held in Yarloop on May 21, 2025. A total of 28 people from Myalup and Binningup attended the workshop. The FUTYR workshops helped us to understand and support the priorities emerging from the scorecard. Over the course of the workshops, we received many written suggestions and comments.

Workshop participants also reviewed approximately 154 actions proposed for inclusion in the Council Plan. These were grouped under the banner of nine themes and 23 objectives, as shown on the next page.

The 148 actions were developed from a variety of sources, including MARKYT Scorecard feedback and actions carried over from existing plans and strategies.

The workshops gave participants an opportunity to provide feedback on topics across the whole Shire. They also allowed us to understand what was important to each community. The pages below provide a general overview of the responses and priorities that emerged at the Rural North workshop.

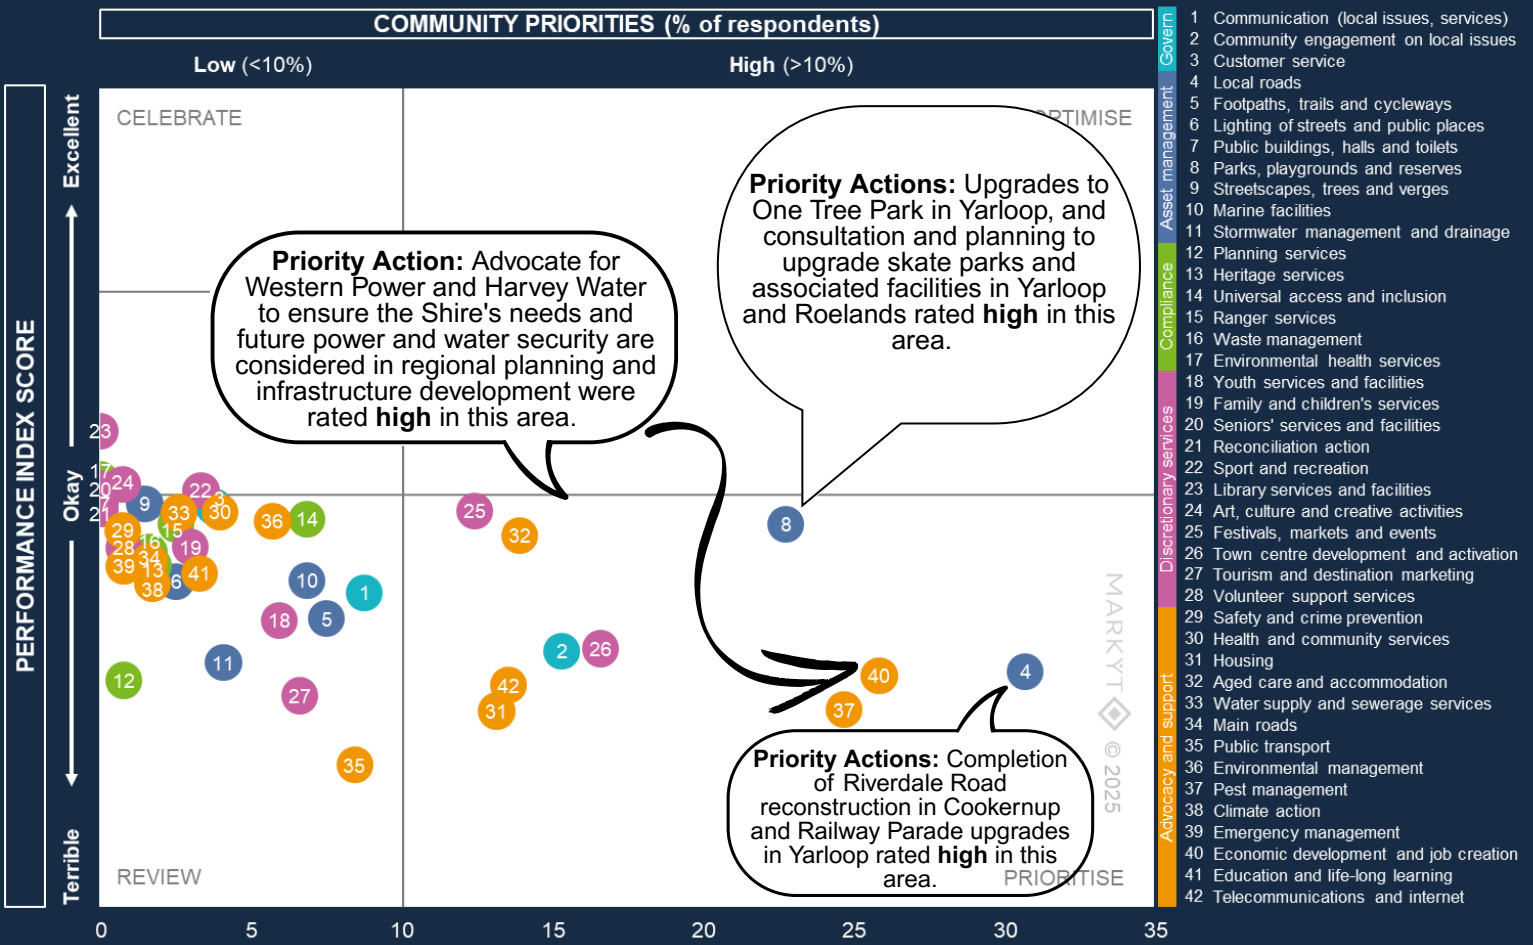

Page 2 shows the average ratings given for the 23 objectives by Rural North workshop attendees.

Page 3 shows the Rural North area's Community Scorecard results charts. This also includes examples of how the workshops rated some specific actions related to the priorities identified in the scorecard.
