## Acknowledgement of Country

The Shire of Harvey acknowledges the traditional custodians of the land and their continuing connection to land, waters and community. We pay our respects to all members of the Aboriginal communities and their cultures; and to Elders both past and present.

# Executive Summary

Shire of Harvey residents value their libraries. This is the message that came through in the community consultation that informed the development of this report. To residents, libraries enriches lives. Libraries transform lives and build communities. Libraries are more than books. They are a place to learn, connect, create, work, read and relax.

The purpose of the Library Vision 2022-2032 is to inform, influence and drive future planning and priorities of the Shire's library services to ensure that what we implement in the short term aligns with where we want to be in the longer term. The report outlines the library vision, mission, guiding principles, strategic goals and actions that will guide planning and priorities for the next 10 years.

There are five strategic goals that will drive our vision.

- Goal 1 Connection and Inclusion.
- Goal 2 Literacy and Learning.
- Goal 3 Infrastructure and Workforce.
- Goal 4 Consult and Collaborate.
- Goal 5 Accountable and Sustainable.

The survey results clearly demonstrate that residents view libraries as an important part of their community. Residents feel safe and welcomed in libraries. To our community, libraries are not just for literacy and learning, it is also a place for connection, empowerment, enrichment and inclusion. All these aspirations have been represented and considered as part of this report.

We also need to give consideration to trends and opportunities like changing demographics, connected learning, design thinking, social capital and the impact of library brand; all of which will influence library services in the coming years.

As we move to implement actions from this report, we will continue to evaluate our performance and monitor our progress by reporting through to Council and community quarterly and annually. We also aim to conduct a five-year major review to ensure library services are relevant and up to date with the changing environment.

Thank you to everyone who contributed to this report. We know that our libraries are much loved public spaces in the Shire. We hope to continue this for years to come as we work towards connecting people to a world of possibilities.

## Council's Commitment

Council commits to actively support library services that empower, inspire and connect the community.

## Vision

To connect you to a world of possibilities.

## Mission

To empower, inspire and connect as many people to literacy, learning, skills, creativity and experiences beyond books.

# Background

The Shire of Harvey has four libraries located in Australind, Harvey, Binningup and Yarloop.

## Service Overview

The Shire of Harvey has four libraries located at Australind, Harvey, Binningup and Yarloop. Australind and Harvey are housed in their own buildings and are both open 40 hours per week. Binningup and Yarloop are co-located with other facilities in the Shire with Binningup at the Binningup Hall and Yarloop at Yarloop Primary School and are open 10 hours per week.

The libraries provide a comprehensive range of services including:

- Lending out books, DVDs, talking books, magazines and digital resources.
- Providing computer facilities and free WiFi.
- Consistently supporting customers with technology issues.
- Offering photocopying, printing, faxing and binding services.

Over the past decade, libraries have transformed from quiet warehouses of books into active community spaces, and the Shire of Harvey Libraries are constantly humming with activities.

Australind and Harvey hold regular children programs and a range of school holiday events.

Libraries also run other programs including outreach to schools, author talks, numerous workshops, outreach to housebound readers and technology support. During COVID lockdowns, libraries introduced the library takeaway service; a service that connected the community during these difficult times. The libraries welcome and serve all people of all ages and cultural background.

Attendance at programs continues to grow each year, although space limitations can sometimes be a barrier. In the last financial year, the Shire spent approximately \$1m on its libraries.

The Shire of Harvey was a founding member of the South West One Library Consortia. This enables easy access to more than 80,000 items and allows library users to borrow and return items at any of the participating Shires. This is proving to be a great benefit to all library customers.

# Strategic Landscape

- 1 The Library Board of Western Australia Act 1951
- 2 State and Local Government Agreement for the Provision of Public Library Services in Western Australia September 2020
- 3 Shire of Harvey Strategic Community Plan 2021-2031
- 4 Shire of Harvey Corporate Business Plan
- 5 Library Vision 2022-2032

The *Library Board of Western Australia Act 1951* governs the delivery of public library services in Western Australia in partnership with the State Government.

This partnership is formalised in the State and Local Government Agreement for the Provision of Public Libraries in Western Australia that outline the way in which State Government and Local government will work together to deliver responsive and sustainable library services. This partnership is further strengthened by the WA Public Library Strategy 2018 which is currently under review at the time of writing this report.

The Strategic Community Plan and the Corporate Business Plan are key planning documents of the Shire. These plans were developed using the integrated planning and reporting framework that provides local governments with the mechanisms to translate community aspirations and priorities into operational directives, and to track progress in delivering on those objectives. Library services are included in the following objective:

## Strategic Community Plan

### Strategic Direction 2: Connected Communities

A safe, accessible, connected community where everyone has the opportunity to contribute and belong.

Provide a library and information service which connects the community to information, entertainment and lifelong learning.

The Library Vision 2022-2032 is an internal document that the Shire will use to guide the delivery of library service to meet this objective.

### Informing Plans

**The Library Vision 2022-2032 is also linked with a number of other Shire plans and strategies.**

- Voice of Youth 2021-2026.
- Access and Inclusion Plan 2021-2026.
- Aging Together - Age Friendly Strategy 2022-2027.
- Communication and Engagement Plan 2021-2026.
- Bright Futures – A Strategy for Children and Families 2022-2027.
- Draft Creative Communities Strategy 2022-2027.

# The Role of Public Libraries

This report adopts the IFLA/UNESCO Public Library Manifesto 1994 definition of public libraries.

*“The public library, the local gateway to knowledge, provides a basic condition for lifelong learning, independent decision-making and cultural development of the individual and social groups.*

*The services of the public library are provided on the basis of equality of access for all, regardless of age, race, sex, religion, nationality, language or social status.*

*The public library shall in principle be free of charge.*

*The public library is the responsibility of local and national authorities. It must be supported by specific legislation and financed by national and local governments. It has to be an essential component of any long-term strategy for culture, information provision, literacy and education.”*

# Trends and Opportunities

While learning and literacy will always be core business, public libraries are also increasingly becoming contemporary modern spaces where people come to learn, connect, create, work, read and relax.

This change has presented opportunities and trends libraries should consider in planning for future library services.

## Connected Learning

Connected learning is learning that uses technology to deliver and connect people to information. New and emerging technology has increasingly changed community expectations of library services. People expect libraries to have technology they can use to do business, study and create. They also want information delivered to their homes using technology. Connected learning is a trend that will continue to impact library services

## Places of Social Capital

Social capital is one of the building blocks of a strong community. Social capital is when people with shared values come together to meet, network and potentially develop relationships with other members of the community. Public libraries bring people together. It is one of the few public buildings that is free to use, safe and strongly valued by the community. Designing library spaces, programs and services that builds social capital is an opportunity that should be maximised.

## Library Brand

Public Libraries make excellent arenas for developing local culture and identity. Communities trust their libraries. They feel welcomed and safe in libraries. This is an opportunity to build on this trust using a library brand as a driving force in library infrastructure planning.

## Changing Demographics

Our changing demographics present an opportunity to design libraries that meets the growing needs of our population. From seniors, to youth, to families with young children, the need for specialist collections, adult and children's education and activities targeting all demographics will increase. Visionary thinking is essential.

## Design Thinking

Design thinking is a concept adopted by many innovators. It is where products are designed based on the needs and interest of users who could be using the products. It is a human-centred, collaborative, action oriented process that challenge assumptions, redefine problems and create innovative solutions to model and test. In the library world, using design thinking principles could help libraries discover authentic and positives ways to address community aspirations.

# Community Engagement

External and internal consultation took place to inform the development of the Library Vision 2022-2032.

Four methods were used to gather data including:

- Library user and non-user surveys distributed online, in libraries and in all Shire facilities.
- Pop up events in Australind, Brunswick, Harvey and Treendale.
- Library staff workshop.
- Library Advisory Group contribution and feedback.

Feedback received has driven the development of the strategic goals, objectives, and actions in this report.

## Community Engagement

### What library staff said

Library staff participated in a library visioning workshop. The purpose of the workshop was to gauge what staff think libraries will look like in ten years.

This included completing a survey prior to the workshop, whole group discussions, small group discussions and round the table opportunities.

A Strength, Weakness, Opportunity, Threat (SWOT) analysis was conducted.

## Community Engagement

### Top Things Libraries can do to Improve Customer Satisfaction

#### Priorities

- 1** Increase items in the collection that customers want and have more relevant collections and resources available at each library that suits their demographics.
- 2** Provide more relevant and high quality programs, activities and events for adults.
- 3** Develop and deliver activities and events that welcomes new residents and celebrates cultural diversity in the community.
- 4** Improve library spaces and make them modern, vibrant and accessible.
- 5** Provide more relevant and high quality programs, activities and events for young adults and children.
- 6** Increase digital literacy programs and services.
- 7** Review opening hours.
- 8** Improve the way we promote our digital content to maximise usage.
- 9** Increase computer, internet access and new technology that supports those who want to do business in the library space.
- 10** Improve communication to keep library users and non-users informed of what is happening in the libraries.

# Guiding Principles

The following principles will guide the provision of library services for the Shire.

## Principle 1 - Connection

We commit to connect community to literacy, learning, creativity, inspiration and experiences to empower a stronger and resilient people.

## Principle 2 - Inclusion

We commit to create an environment that is inclusive for all through meaningful dialogue, provision of information, entertainment and life-long learning opportunities and respect that every person matters.

## Principle 3 - Curiosity

We commit to not settle for what we know but continue to explore new ideas because curiosity teamed with creativity foster innovative ways to meet community needs.

## Principle 4 - Collaboration

We commit to collaborate and partner with our internal and external stakeholders as to meet our vision and goals, we cannot do it alone.

## Principle 5 - Accountable

We commit to be accountable for decisions we make and take an integrated and holistic approach in all we do to ensure we remain sustainable.
