

Additional Information

I have extensive experience and Police based training, which has enabled me a sound understanding of, Emergency Management Co-Ordination, Crime Prevention, Traffic Management and Road Safety, Cultural Awareness, Budget Management, Ethical Behaviour and Occupational Health and Safety.

I believe these attributes, should I be successful, will be of great benefit to the community in times of and planning for events that may occur and are subject to contribution by the Council on behalf of the community.

I am an active listener willing to consider all views, and importantly, act on those views that are relevant to the good of the community as a whole. I understand and believe that our community also understands that there are times when events are literally out of Councils hands. I do promise however to advocate for you when at those times a clear voice of approval or disapproval is needed.

I am committed to providing strong community representation, leadership and guidance, strategically based decisions and planning and to ensure a fair line of communication between the community and the Council. These commitments are the foundation of why Councillors are elected.

I have never been a person to shirk responsibility and voice an opinion. If elected I see my role as providing that determination on behalf of the community.
